

Citrix NetScaler Traffic Management

Certification: [None](#) | Course Length: [2 days](#) | Instructional Method: [Classroom or Virtual with hands-on labs](#)

Course Overview:

Learn the skills required to configure and manage NetScaler Citrix Traffic Management features, including Content Switching, Traffic Optimization, and Global Server Load Balancing. At the end of the course, students will be able to configure their NetScaler environments to address efficient traffic switching and resilience requirements including Content Switching, Traffic Optimization, and Disaster Recovery.

What you'll learn:

- Optimize the NetScaler system for traffic handling and management
- Customize the NetScaler system for traffic flow and content-specific requirements
- Employ recommended tools and techniques to troubleshoot common NetScaler network and connectivity issues
- Configure advanced load balancing and GSLB on the NetScaler system

Is this course for you?

Built for IT Professionals working with NetScaler, with little or no previous NetScaler experience. Potential students include administrators, engineers, and architects interested in learning how to deploy or manage NetScaler traffic management

Prerequisite Knowledge:

Citrix recommends students prepare for this course by taking the following course: CNS-102 NetScaler Overview.

Mandatory pre-requisite courses: :

- CNS-222 Citrix NetScaler Essentials and Unified Gateway
- OR
- CNS-207 Implementing Citrix NetScaler 11 for App and Desktop Solutions (legacy course that has been replaced by CNS-222)

Citrix Versions Covered:

This course is currently on NetScaler version 12.
